

TEMPORARY FENCE

Silt Fence

SKU FA_SILT

A geotextile silt and sediment fence that attaches to the base of temporary fence panels to prevent soil erosion and sediment runoff from construction sites, a key environmental compliance product.

SPECIFICATION	DETAIL
Material	Geotextile woven fabric
Function	Sediment and silt containment barrier
Attachment	Fixes to base of temporary fence panels
Form	Roll
Compliance	Sediment and erosion control requirements
Compatible With	Standard temporary fence panels

KEY FEATURES

- ✓ Geotextile fabric filters water while trapping silt and sediment
- ✓ Attached directly to the base of existing temporary fence panels
- ✓ Meets environmental compliance requirements for construction and civil sites
- ✓ Supplied in rolls for easy handling and installation along long fence runs
- ✓ Durable enough to withstand rain events and site traffic

APPLICATIONS

Construction · Home Builders · Civil · Landscaping · Temporary Fence
